Larry:-

I informed LIFE that this would be brought to Mr. Powers' attention, but that Mr. Powers considers his public appearances to have been completed as of yesterday, and therefore, he would not in the immediate future be available for the so-called exploratory talk which would result naturally in his having to give them considerable information at a time when he should not be seeing the Press.

LIFE understood the situation and is not pressing for the immediate future, but would like him to consider a discussion with them later to see if he has a story that they would be interested in buying.
